Subject: Deschutes Decision Memo

---

Hello - I've put together some background info for you all to take a look at prior to the meeting next Friday. I've tried to summarize the main outstanding issues that I think will benefit from a group discussion. At some point early next week, I will share out a One Drive Folder with a cleaned up version of the decision memo, so you can have that for reference as well. Thanks for all of your help so far!

Proposed Agenda:

1. Go over changes made based on feedback received (5 min)
  2. Outstanding issues/questions (45 min)
  3. Next steps - what is our strategy for briefing this up? (10 min)
- 

Hi everyone,

I plan to take a look at the comments received on the decision memo, and tee up the outstanding issues for us to discuss. I will compile a list of topics before the meeting and send them out. (b)(5) attorney-client

Thanks,

Miranda

**Deschutes Decision Memo – R10 Program/ORC Discussion**  
**April 27, 2018**

Major changes which have been made or will be made, based on feedback received:

1. Adding in explicit citations from the regulations where we are disapproving.
2. Adding in more description in the introduction of Ecology's phase approach, to explain why study area is larger than submittal.
3. Separating out Deschutes-specific language from section on CWA requirements.
4. Re-organization to make our review of each pollutant tie into overall list of CWA requirements (i.e. combining and separating out certain sections to make them consistent).

Outstanding issues/questions:

9. *Document Organization*

There was a suggestion to add the 'Summary of Action' section at the end of each pollutant section. Right now, the summary for all pollutants is grouped at the end. Thoughts?
